### MILLIONAIRE IN SELLING RACE WAR.

Charles R. Drummond Bid Up W. P. Magrane's Horse, Matt Hogan, at Delmar Track.

BEAT HORSESHOE TOBACCO

Mr. Drummond Owns the Latter Animal - Milwaukee, a Good Thing, Went Wrong-Maximus Fouled.

There was plenty of excitement at Delmar Park race track yesterday, and it culminated after the finish of the last race, when Billy Magrane's fast colt Matt Hogan beat Charles R. Drummond's Horseshoe Tobacco in this event. Mr. Drummond, who is a member of the great tobacco house, bid the winner up a few dollars. The news that a millionaire had broken into the bidding-up game brought people running from all parts of the track. They expected to see Matt Hogan sold for a fabulous sum. They figured the millionaire would have him, no matter what he cost, once he started after him. Mr. Magrane was evidently under the same impression, for he bid back with great arder, knowing the wealth of the man he was up against and thinking what a nice sale he might make. They were all disappointed, however, as Mr. Drummond stopped after bidding the horse up a few dollars, and the little excitement faded away. It cost Mr. Magrane \$261 to keep his horse.

The race was an interesting one. Horse-shoe Tobacco opened at 1 to 2 in the betting and went to 11 to 10 in a hurry. As the track suited him in every way he seemed a good bet at the price, and the public began to get aboard. There was a large and saplent plunge on Doctor Cave at 12 to 1, who, with Vititoe up, did not seem to have a chance. Mr. Drummond and his friends

a chance. Mr. Drummond and his friends got on Horseshoe Tobacco. When they paraded it was evident that Houseshoe Tobacco was lame. The rail birds waited to see if the judges would take cognizance of his condition. Seeing that they did not they made a rush and got aboard Doctor Cave and Matt Hugan. Those who had bets on Horseshoe Tobacco and were lucky enough to be in a position to have them taken off did so.

The start was good. Horseshoe Tobacco was off well in front and running as usual. He had fair speed, but Matt Hugan ran around the lot on the back stretch and Doctor Cave also showed prominently. Horseshoe Tobacco was beaten at the last quarter, and Doctor Cave and Matt Hogan started to fight it out. The weight stopped Doctor Cave and Matt Hogan came away. Seeing that Doctor Cave was beaten Horseshoe Tobacco took courage and came again, getting second place.

Milwaukee a Hot "Good Thing."

Milwaukee a Hot "Good Thing."
Another crippled horse that was a "good thing" went to defeat in the fourth race. Tom Hurns had his grand-looking old horse Milwaukee in with a fair lot. This grand individual was apparently in good condition, save in his high hind foot, the fetlock tendons of which were so badly bowed that the entire foot and fetlock lay down as if the tendons were severed, it was that the entire foot and fetlock lay down as if the tendons were severed. It was bandaged up, and Mr. Hurns said he would win if he did not break down. The tip was swfully hot, and the good thing was backed at 13 to 16, sight unseen. No one could back the horse having seen his foot. Dale gave him a capital ride, and he showed well to the last quarter. Then the weak ankle began to give way, and he was beaten by Belle Sim'soo, upon whom R. Murphy rode a nice race, after the early interference to which the mare was subjected.

Randrol won the first race because he got off well, and Ben Hempstead and Phonolite, the next contenders, were away badly. the next contenders, were away badly. Phonolite would have won with anything

Phonolite would have won with anything like an even break.

Wedderstrand's ripping finish on Admiral Schley Rot him the money in the second event, though Early Bird was ten pounds the best. Givens let Early Bird swerve in the stretch, and Wedderstrand rode the finish of his life with the whip. His previous efforts in that line must now be put down as not his form.

Dominis proved himself a good horse when he galloped home in the third event an easy winner after being virtually left at the post. He is a little horse, but he picked up big weight and ran a nice race. Ben Frost, who was also off badly, ran an excellent race.

Frost, who was also off badly, ran an excellent race.

If Mr. Brady had adhered to the law of his decision in the Meddlesome-Hardly case he would have disqualified La Desirous in the fourth race. Mr. Darden's filly carried Maximus wide into the stretch and bored upon him all the way to the winning post. Maximus managed to win by a scant nose. It was an egregious foul, much more flagrant than the one which Meddlesome committed avainst Hardly, Maximus won by a scant nose, whereas Hardly won comfortably by quite a margin. Then, Meddlesome never did touch Hardly, while O'Nelli's leg was in front of that of the boy on Maximus all the way down. As Maximus was barred in the betting, his win only affected the purse. Desirous was the favorite at 2 to 10, and to have disqualified her for fouling the winner—she did not interfere with any other horse any more than Meddlesome did—would have hurt bettors. But if Meddlesome was disqualified for fouling the winner Hardly, it seems that La Desirous, who committed a much grosser foul, should be entitled to similar disqualification.

TO-DAY'S CARD AT DELMAR PARK.

Frank Pearce, Hindoonet and Ida Ledford All Look Good. Pirate's Daughter, Frank Pearce and Harry Pullian should produce the winner of the first race at Delmar Park to-day. Pearce has long been threatening to win one of these "dog" races. He has good speed to help him out in the big field. With a second-rate boy he should win. Harry Pullian is always good enough to be up there under bad boys, and he will be there to-day under any kind of boy. Pirate's Daughter is a bad actor and much depends on the start. Judge Kemp is fairly fast, but will scarce endure the mile.

Hindoonet has done but poorly so far. Bloss has been riding him but illy. Wax Taper under Bloss was beaten by dogs. Yet Hindoonet ought to do business to-day with any kind of a ride. Coreel will be close up. Fred Hessig never ran up to his good race with General McGruder and ict him silde and take the fast Thisbe for third place.

Maximus should be first in the third race and he has run so consistently that it is time he was reinstated in the betting. He has Satin Coat beaten on their races yesterday. Satin Coat should be second and Orris third.

The 2-year-old stake race will bring out three youngsters, one good one and two fair ones. On her last race at the Fair Grounds Wakita is a 1-to-4 shot, but at that Gallagher is a good deal of an unknown quantity. Wakita should win easily.

Ida Ledford should gallop in in the sixth race, with Wall, Oudenarde and Skillmun all running for the place. This looks like a nice race and a soft spot for Miss Ida.

It is about Syncopated Sandy's turn to run

Hires Rootbeer to refresh the body, a book to rest the mind-that's contentment. A Mc. package makes are gallons.

a good race. Terra Incognita should make him go some, but with a good boy up and a ride Mr. Sandy will walk in. This goes if he finishes last.

With a good vigorous drive General Mc-Gruder will beat Sue Johnson in the seventh race. McGruder ran a bad race last time out. Any horse which insists upon stepping the first quarter in the mud in 24½ with Tom Collins is very liable to run a bad race after that. Sue Johnson may be second and Hardly third.

FOREIGN BOOKS AT NEWPORT. Betting on Outside Events Sanctioned

by the Congress.

Cincinnati, O., July 5.—Three favorites won at Newport to-day, the remaining events going to two second choices and a long shot. The American Turf Congress has finally sanctioned the return of the foreign book to the Newport track, and on next Monday the betting on outside events will be posted. The congress took a telegraphic vote on the question, and a majority of the members voted to suspend the rule against foreign books on tracks under the jurisdiction of the congress. Newport will be the first to take advantage of it. The rule against foreign books was passed at Chicago nearly five years ago. Weather fine; track fast.

WASHINGTON PARK RACES.

Three Events Won by Favorites and Three by Outsiders. Three by Outsiders.

Chlcago, Ill., July 5.—The Washington Park track is heavy and probably will be in rather poor condition for the great Western Handicap, which is carded for tomorrow, in which Robert Waddell is assigned to carry 122 pounds for a mile and a half. There was no special feature to-day. While three favorites won in succession, beginning with the third race, the other three events went to long-priced outsiders. The best contest of the day was the fourth race, which Barrack, the favorite, won only after a terrific struggle with G. W. W., and Gawaine. Montanic was the favorite in the last race, but he finished last, after having set the pace in the early part. Toah, from Pat Dunne's stable, ran over Lady Strathmore in the stretch and won handily. WARSHIPS IN CLOSE TOUCH.

Chicago and Atlanta Will Go to Buenos Ayres if Necessary. REPUBLIC SPECIAL

REFUBLIC SPECIAL,
Washington, July 5.—In case American
Interests in Argentina should be endangered by the trouble prevailing there, the
protected cruisers Chicago and Atlanta will protected cruisers Chicago and Atlanta will immediately sail for Buenos Ayres.

Minister Lord, accredited to Argentina, has not cabled any information to the State Department showing that a serious condition of affairs has arisen, nor do his mail dispatches indicate that he anticipated an outbreak which would require the Government to apply martial law.

Rear Admiral Cromwell, Commander-in-Chief of the South Atlantic station, only left Buenos Ayres a few weeks ago with his squadron for Rio de Janeiro, where he has aince arrived. Had he anticipated trouble at the time he was sailing, the authorities say he would certainly not have gone.

gone.

Admiral Cromwell undoubtedly arranged to keep in communication with Mr. Lord, and, if the latter thinks a warship necessary to insure protection of American interests, a dispatch to the naval officer will be followed by its appearance.

DESTROYED BY DYNAMITE. Mill Blown Up as Result of a Sa-

loon Fight.

Frankfort, Ind., July 5.—Last night the big sawmill belonging to Seth Ratclin at Middle Fork was destroyed by an explosion of dynamits. The friends of Ratclin claim that the deed resulted from the flevce saloon fight at Russiaville, which finally resulted in John R. Mason being sent to july and the refusal of Governor Durbin to pardon him. Ratclin took a prominent part in the fight against Mason, and it is claimed that he received many threats, both personally and by mail.

#### ALCEDO PICKED FOR BRIGHTON HANDICAP.

With Twelve Pounds Penalty He Is Still Choice of the Wise-Surprise Not Improbable.

REPUBLIC SPECIAL New York, July 5 .- But for cloudbursts, Brighton Beach's twenty-third annual meeting would have been ushered in tomorrow with a fair track and large fields As it is, there is more than a chance that the force of the rain had the effect of beating the sandy track into a condition which may even yet be good enough to defeat the calculations of those "handicappers" who figure on a muddy track. The event of the day will, of course, be the Brighton Handicap, the fourth of the season, beginning with the Metropolitan, and

vas followed by the Brooklyn and Suburban handicaps. Coming as it does, comparative-ly late in the season, this, the richest of ly late in the season, this, the richest of the four races, suffers some by comparison with the other three, but in the ten horses bulletined to start there is ample material for a cracking good race—not as good as that of last year, when Jackpot beat a brilliant heat, but still good enough to make it very difficult to name the winner.

Alcedo, with 123 pounds (twelke pounds penalty), may be a different horse than the same coil with his suburban impost. Spencer, however, has been engaged to ride him, and, with this experienced jockey in the saddle, the extra weight may be offset. Alcedo is the favorite with the ring.

With a really heavy track Blues is thought to be out of it, as he has never shown to good advantage in mud. Yet, if he stands, Shaw will ride him, unless he was engaged to ride Watercure prior to the time that "Tom" Walsh purchased second call on his services. Should Blues start, therefore, it may be assumed that his chance is a fair one.

The owner of Prince of Melbourne has retained the services of "Patsy" McCus for his horse, and it would be quite on the The owner of Prince of Melbourne has retained the services of "Patsy" McCus for his horse, and it would be quite on the cards for this good, though erratic, jockey to ride the winner of the coveted prize.

Burnes will be on Decanter's back. Cochran probably on Toddy, and Brigadier will probably be well served.

All the other races have filled well, and with fair weather there will probably be the record-breaking crowd at the track by the sea.

FARMER'S DOUBLE CRIME.

Killed His Wife and Then Ended His Own Life.

Des Moines, Ia., July 5.—F. A. Brackett, a retired farmer from Atlantic, Ia., killed his wife and then shot himself in their room at the home of their daughter, Mrs. Otis E. Fowell, 202 West Ninth street, about 1 o'clock this morning. The tragedy was not discovered until 10 o'clock, when Mrs. Pewell went upstairs to call her father and mother to breakfast.

Hrackett was lying on the bed with a builte hole through his forehead, while his wife was upon the floor with a builte hole in her temple. Both were dead.

The deceased was 68 years old. Ill health and the extreme heat is supposed to have been the cause which led to the commission of the deed. The couple had come to Des Moines to spend the Fourth, and had gone to the park during the day, where Brackett frequently complained that the heat of the day was making him ill. It is believed his mind became affected.

#### TESTING THE MERITS OF CUP DEFENDERS.

Constitution, Columbia and Independence Ready for Their Great Race This Afternoon.

Newport, R. I., July 5 .- Preparations are complete to-night for the great race tomorrow between the Constitution, Independence and Columbia. It is probable that there is more interest in this race than in any yacht-racing contest that has ever taken place between American boats. The Independence is an unknown quantity. She is regarded by many well-known and experienced yachtsmen as an experiment, and should she win over the two Herreshoff boats many experts go so far as to say that this would put an end to the big single stickers as cup challengers and defenders, so wide is her departure from the original

yachting idea.

The First Real Test. Then, too, the interest in to-morrow's race is widespread and intense, because, should it proceed from start to finish without accient, it will be the first real test of the new dent, it will be the first real test of the new Herreshoff creation, the Constitution. She has thus far started in only two races. In the first she suffered a slight mishap her-self, which many say was enough to lose her the race. In the second trial the old Columbia came to grief and the contest was declared off. So, as a matter of fact, her speed qualities are as yet untried. Looked Like a Race.

speed qualities are as yet untried.

Looked Like a Rase.

There was some excitement in the bay this afternoon when it was thought that the two new boats were having a little brush while out on trial spins. They came together on the same tack, while close hauled, entirely by accident, and for fourteen minutes went on in thorough racing style. But, try as they would, the sharps could get no reliable line on their abilities.

The Independence left her moorings about 1:35 this afternoon and stood down the channel under mainsail, club topsaid, staysall and jib. When off Castle Hill she broke out her tremendous spinnaker, and with a good burst of speed went down towards Brenton's Reef lightship. When well off the reef she took in her spinnaker, came about and stood over toward Narragansett Pier. Then she hauled aft her sheets and started on a five-mile beat up the bay.

Meanwhile the Constitution, which had been lying at her moorings all the morning with mainsail and a new club topsail set, let go and stood over for the Jamestown shore on the starboard tack, Captain Rhodes apparently only jogging her along. Soon afterward, however, he had everything drawing in proper form, and the boat went through the water at top speed in a light northeast wind, well down the channel. To leeward was the Independence, also at her best speed, apparently, and also on the starboard tack, but the Boston boat was so far in the lee that it was not possible to get any idea of their relative speed qualities. The Independence was given a good full and went through the water very fast, but the Constitution was the same time pointing much higher. The little brush was soon over, and no one was the wiser. Both boats shortly after came to their moorings. The Columbia did not leave the harbor to-day.

Marked Inclination to Move South ward-Special Correspondence to Manufacturer's Record From Scenes of Activity.

REPUBLIC SPECIAL Baltimore, Md., July 5.-There is a little city in South Carolina-Spartanburg-with 11.395 inhabitants, in which are the headquarters of a number of cotton manufacturing companies. Its growth may be taken as a type of the progress of other industria

Correspondence from there, in this week's Manufacturer's Record, tells of the semi annual dividends, ranging from 5 to 3 per cent, paid by these corporations on stock ranging from \$200,000 to \$1,000,000. It also tells of other dividends, including those far

The correspondent adds that every dollar is in action at the present time and that some of the results are visible in the construction now under way of two \$20,000 houses, three others costing \$10,000, a \$12,-000 schoolhouse and a \$14,000 college dormitory in the city itself, while within twenty miles of the city two large cotton factorie

are being built.

Never before was there such a demand for brick in Spartanburg as now. Other projects connected with the cotton industry projects connected with the cotton industry include the award during the week of a contract for the erection of a two-story building, 40 by 60 feet, at Athens, Ga., in which will be installed twenty knitting machines, a complete dyeing plant and a 40-horse-power engine for the daily production of about 150 dozen pairs of misses' and children's hose; plans for a \$50,000 knitting plant at Baltimore, to employ 200 operatives, with a daily capacity of 400 dozen suits of underwear; the letting of a contract by the Yazoo City, Miss., cotton mills for the 250-horse-power steam plant for its mill building, in which 5,000 spindles will be installed, and the letting of a contract at \$18,350 for the erection of the textile school building for the North Carolina College of Agriculture and Manufacture Aris at Raielgh for \$25,000 worth of textile machinery has already been given.

Capital Moving Southward.

This will make the fourth school of the letting oversition in the South as already in the South of the letting of the South o

This will make the fourth school of the kind in operation in the South, a situation strikingly suggestive of the trend of public sentiment toward preparation for the work which the South is to accomplish as a cotton manufacturer, as well as a potent factor in other lines of industry, whether revealed in the export during twelve months of \$7.574 tope of the iron through the port of New in other lines of industry, whether revealed in the export during twelve months of 97.574 tons of pig iron through the port of New Orleans, the mining in the first six months of this year of 138.624 tons of zinc ore and 18.829 tons of lead ore, valued in all at more than \$4.090.900 in the Joplin, Mo., region, or the activity in all developments in Kentucky and Tennessee and in Texas. Special correspondence of the Manufacturer's Record from Beaumont reports considerable boring outside the territory around Beaumont, but no ascertained results, though in the Beaumont region two gushers have recently been added to those hitherto struck. One of these has a depth of slightly more than a thousand feet. It was struck unexpectedly and blew the 2-inch pipe clear out of the well, carrying away the top of the derrick and rising to a height of 200 feet.

All of these developments have given ar and of these developments have given an impetus to the inclination on the part of capital and population to move toward the South, and this movement is being en-couraged by many leading newspapers and by State and city organizations of estab-lished position.

WRIT SERVED ON JUDGE-Circuit Judge Spencer was served yesterday with the modified order of the writ, in which Judge Spencer was prohibited from ordering property belonging to the Yore estate at Tweifth and Olive streets, sold the second time. Morton Jourdan, who bought the property, refused to take it because the Title Guaranty Trust Company would not issue a guarantee of title on account of a technical matter. Under the modified order Mr. Jourdan is allowed until June 30 to consummate the sale. If he does not take the property it can then be sold again. WRIT SERVED ON JUDGE-Circuit

POLICE SEEK YOUNG GIRL—The police were requested vesterday to search for Martha Miller, 14 years old, who has been missing from her home at No. 274 North Broadday since June 25. Strike of Colorado Gold Miners, May Result in Closing a Producer.

Denver, Colo., July 5.-A calm prevailed lo-day over the scene of Wednesday's trouble with the striking miners employed in the Smuggler-Union mine near Telluride, Colo. The latest information concerning the situation there came to Governor Orman this evening from Sheriff Dowtsin and was contained in a telegram, which read as follows:

"There has been no violence or property. destroyed since the 3d. I do not think T. can protect life and property in case of a riot. It is usually done before one knows-

Governor Orman was very much relieved he feared that there might be an outbreak before his commission could arrive in Tellu-ride and take the matter in hand. Mine ride and take the matter in hand. Mine Manager Collins's reply to the ultimatum of the strikers, in which he practically declined to accept their terms, and intimated that it would be necessary to shut down the Smugger-Union indefinitely if their demands were persisted in, was the most important development in the situation to day. The final demands of the miners, and their refusal of the manager to accede to them make it appear useless for either side to further present its claims, and there appears to be no chance for an amicable settle. pears to be no chance for an amicable sete tlement of the differences of the contending
